# WELCOME TO YOUR ACADEMY

## THE MESSAGE FROM OUR CEO:

### FIGHT FOR YOUR DREAM

In the pursuit of success in academics, a key formula has been identified, based on hard work, consistency, and sacrifice.

These elements are considered fundamental pillars both on and off the court, and our players must be aware of this.

### HOW DO WE OPERATE?

After more than 20 years of experience, we have consolidated a successful methodology.

Training sessions with Gustavo Pratto and his Professional Technical Staff take place at Vega Sport, Valladolid.

Each session consists of 1 daily session (M- T) + physical training.

Our entire academy follows the same methodology at all levels.

Each session lasts 1.5H in leveled groups, and players have the option to repeat the training among themselves in the afternoon.

Each of its apartments features a kitchen, living room, bathroom, and bedrooms.

It offers accommodation for elite athletes, conducts global scouting for promising padel players with JOMA sponsorship, and provides comprehensive training, including coaching, social media skills, and essential languages for the players' holistic development.

They are the fundamental pillar of the academy, and we take care of each of their needs.

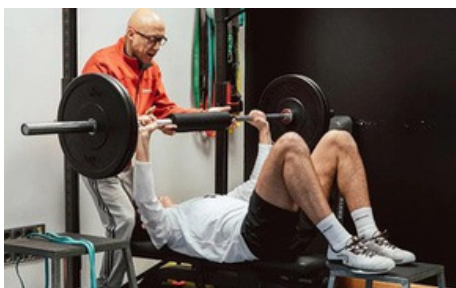

# PHYSICAL TRAINING CONNECTION

## OUR CHAMPIONS FACTORY

In our Padel Academy, every detail is carefully planned by Gustavo Pratto, establishing a direct connection between paddle training and physical workouts.

This comprehensive approach not only enhances performance on the court but also maximizes physical condition to help players reach their best version.

## NACHO COQUE PHYSICAL TRAINER

Collaboration with Nacho Coque in the field of physical preparation ensures a fitness approach tailored specifically to each player.

## PERFORMANCE SYNERGY

We leverage synergy to enhance endurance, power, and agility specifically tailored to the demands of paddle.

## PSYCHOLOGY AND NUTRITION

We are aware that both areas are fundamental to bring out the best version of the player on the court.

We work hand in hand with professionals in the field.
